

**SHAKE & ROLL!**  
**RATTLE**  
It's an **EARTHQUAKE!**

But, **do you have coverage?** A standard Homeowner's Insurance policy doesn't automatically protect you from this kind of damage, **so what do you do?**

Call **Olympic Northwest Insurance**, that's what!

Earthquake insurance can be a separate policy, or added to your homeowner's insurance policy for an additional premium. You have questions, **we have answers**, but here are some points to consider in the meantime:

- ⇒ The cost is usually **less than you expect**
- ⇒ Coverage applies to both partial damage and total loss
- ⇒ **Deductible** options ranging from **2% to 25%** are available

**Remember, paying 25% out of pocket for damages is better than paying 100%!**
